## Signature Workshops

Nicole Lee and Inclusive Life are committed to building a more equitable world through conversation and action that are grounded in compassion but never shy away from truth.

**Raising Antiracist Kids: The Power of Intentional Conversations about Race and Parenting**—Nicole’s talks center on research and resources that equip parents to make some of the most difficult parenting conversations more approachable. Knowing that we all make mistakes in this arena, Nicole works to reassure and prepare listeners to persist despite discomfort in order to raise the next generation of inclusion activists.

**How to Talk to Kids About Race**—Equipping kids for anti-race work is hard when adults hardly know the way. Using research and experience, Nicole leads participants to confront misconceptions and discomfort to find ways to engage with the kids they love in ways that build anti-racist, inclusive communities.

**Courageous Conversations**—In today’s changing social and political landscape, people dedicated to justice know that we are called to challenge views we know are harmful. Entering into those conversations with people closest to us requires bravery because we open ourselves to discomfort and rejection, but when we engage we become ambassadors for cultural shifts and reconfiguration. Nicole’s teaching empowers participants to step outside their comfort zone and engage in these critical times.
